About

I'm an experienced film editor interested in 3D and VFX and recently graduated in Visual Effects & Animation from SAE Institute London, passionate about films and games.

I have experience working in the film industry as a film editor, script supervisor and 2nd AC. I can work independently or as part of a team. I'm friendly and open-minded, creating a reliable and safe space. I follow new trends and eager to learn, hard-working and responsible. So if you are looking for a creative, problem-solver and pro-active person, I'll fit perfectly in your team.

My goal is to work in a creative and welcoming environment to improve my knowledge and skills and make the company succeed.
